What’s new in KNIME Edge 1.3

With the release of KNIME Edge 1.3 KNIME Business Hub is now supported. Instead to use KNIME Edge with KNIME Server you need to install and use KNIME Edge up to version 1.2.

KNIME Edge 1.3 Update Guide

Since KNIME Edge version 1.3 is the first version that supports KNIME Business Hub while KNIME Server is only supported up to KNIME Edge version 1.2, an update guide is not available at the moment.

You will find a complete guide to installing KNIME Edge in the [KNIME Edge Installation Guide](#).
